1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hale. Hale discloses the claimed subject matter including an outboard motor (column 4, lines 24, 25) with a water cooled engine and a combustion chamber, exhaust passage means, an exhaust manifold cooling water jacket 5, a pump, and a water jacket outlet 46 with flow rate control means 23.
- 3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hahn shows a device. Oyaizu shows an engine. Nishi shows an engine.
